## Mini HD Jump Starter

Heavy Duty Jump-Start Device Powered  
By Supercapacitor Technology

# KrinkingKART® Mini HD Jump Starter

Avoid downtime from battery failure with the innovative Mini HD jump starter. Engineered with a commercial grade supercapacitor, the Mini HD gives your engine the power to start every time, regardless of the state of charge of your batteries.

- **Fast recharge**—Ready to jump in just 30 seconds
- **Waterproof**—High impact, heavy duty exterior with IP67 rated components to prevent internal moisture damage
- **Lightweight**—Weighs only 19 lb for easy transport
- **IT FLOATS!**

The KrinkingKART® Mini HD ensures you will never experience the frustration of a dead jump pack again. Built with a commercial grade supercapacitor, the Mini HD can fully recharge in just 30 seconds to offer fast and convenient jump starting on the road, in the shop, and even at sea.

The high impact, heavy duty exterior is virtually unaffected by temperatures and is completely maintenance free. The KrinkingKART® Mini HD is designed with no batteries to maintain or replace, offering a long service life, with upwards of one million recharge cycles.

## Mini HD Advantages

### Powered by KAPOWER Supercapacitors

- 30 second recharge provides FULL cranking power
- NEVER needs to be plugged into an A/C power source
- No batteries to maintain or replace

### Always Ready

- Delivers 1500 amps of true cranking power
- Can be recharged up to 1,000,000 times
- Built for HEAVY DUTY harsh environments

### Revolutionary Patented Design

- Weighs Only 19 lb
- No Maintenance Required
- Built-In Safe Guards
- Digital Voltage Gauge
- Reverse Polarity Indicator
- Reverse Polarity Lockout Protection
- Built Using Waterproof IP67 Rated Components
- Heavy Duty 900 Amp Copper Booster Clamps
- 6 ft Heavy Gauge "Welding" Cables Minimize Current Resistance and Ensure Greater Cable Flexibility

Farm  
Equipment

Paratransit  
Vehicles

Boats

Buses

Trucks

## What Our Customers Say about the Mini HD

"We've relied on the Mini HD for 2 years, and I just recently ordered 3 more units for our new boats. I also keep one in my truck to respond to customers who dock at a local restaurant and need a quick start. With the Mini HD, I'm always ready to go."

– **Captain Kerry Kline**  
Sea Tow, Fort Loudon

"We bought the KBI Mini HD for its state-of-the-art technology. We jump start a lot of boats, and the ability to recharge the device in 30 seconds was a huge selling point for us. The Mini HD definitely saves me time, and I would recommend it to others in the industry."

– **Rob Butler**
